

Regional Pedagogy Workshop for College Science Teachers at Bangalore

St. Joseph's College, Bangalore, in collaboration with DBT/DST, is organizing a regional pedagogy workshop for college science teachers in Bangalore from October 4-6th, 2017. This is a part of a series of workshops, designed to introduce teachers to Research-based Pedagogical Tools (RBPTs), that focus on process of science rather than information, and help students develop critical thinking and problem-solving abilities. The workshops also give teachers a platform to network with peers and to get information on funding opportunities. The participants trained in previous national-level workshops by a team of experts from UK will be trainers in this workshop. Teachers from all science disciplines, teaching UG or PG level courses in non-metropolitan locations in Karnataka are eligible to participate.
