**36, LALBAGH ROAD, BANGALORE-560 025.**  
**GOVERNEMENT OF INDIA INFORMATION ACT-2005**  
**PARTICULARS OF CLAUSE 4(I) B**

**Origin:**

St. Joseph's College is run by the Society of Jesus, a Catholic religious order founded in 1540 by St. Ignatius of Loyola. Its members, popularly known as Jesuits have been active in the field of education throughout the world. St. Joseph's College, a 128 years old institution, is a part of their large educational Endeavour. The College is registered under the Bangalore Jesuit Educational Society, which runs St. Joseph's Evening College, St. Joseph's College of Commerce and St. Joseph's College of Business Administration.

**VISION OF THE COLLEGE**

The educational objectives of St. Joseph's College are to prepare men and women for the service of others and the nation. The College provides students with plentiful opportunities to critically understand society and its structures so that education becomes a tool to work for a human and just society. Stress is laid on academic excellence, character formation, social concern and human development.

**ACADEMIC EXCELLENCE**

The college is autonomous and places very high value on academics. The courses are rigorous and need daily application. Assignments have to be submitted on the due dates. Presentations and participation in seminars and workshops are part of the academic life. Students who do not clear minimum number of courses in each semester cannot go to the next semester. College offers a wide variety of extra curricular activities. College has a reading room and a good library. To prepare assignments and papers, it is left to the students to make use of it as much as possible. By the time one graduates, what is expected is to develop the art of critical and scientific thinking. There are various associations in the College. The College Cultural Team, Social Science Association, Natural Science Association, Physical Science association, Language Associations and other Association under different faculties are meant to help to broaden horizons, develop self-esteem and confidence and to provide opportunities for the exercise of leadership. Students are requested to join at least one of the Associations and thus develop academic relationships and a spirit of enquiry.

**SOCIAL CONCERN**

Preparing persons for the service of others is the aim of education in St. Joseph's. At the heart of the college is the Center for Social concern. All students are invited to have a close relationship with this center for involvement in issues of public concern and develop social consciousness. We expect all our students to be sensitive to the poor and be persons of concern, compassion and conscience. The College offers numerous opportunities to gain an insight into

injustices all around. The Center for Social Concern links the College with the community and is involved in various social causes. The College expects all the students to be perceptive to the forces of communalism and castes that threaten harmony and peace and inflict hardship on the common people. It is the vision of the College to train students who are socially conscious, ready to stake their lives for the oppressed and exploited. Then alone the College will have succeeded in its mission.

## **CHARACTER FORMATION**

Character development is the essential aspect of education. A person is what his values are. Character includes behaviors, values and attitudes to life and others and the way one faces life. The time in College is the period when one has to build up characters, hard work, perseverance, honesty, integrity, sensitivity to others and universal love that embraces all people cutting across barriers of language, religion and caste. Essential to any character formation is self-discipline. Lack of discipline in the College results in chaos and disorder and learning becomes impossible. The rules of discipline in the College are meant for social wellbeing, order and harmony. You will find them conducive for academic life if you personalize them in the right spirit.

In the spirit of our Jesuit heritage St. Joseph's College thus strives to develop the whole person with a mission in life. Our task as educators is to create in you a deeper understanding of yourself and of the changing world by creating plentiful opportunities for personal and social growth and total development. For the members of the Society of Jesus, education is no commercial activity. It is a mission. Our mission is to build up a group of young men and women who would be agents of change in society and work towards a secular world of fraternity, equality and justice. We have an excellent staff in this College with the same vision and goals. Interact with them. They will be your guides and they will lead you in the right path.

## **STAFF-STUDENT RAPPORT**

Our lives are shaped very much by the people with whom we constantly interact and here it will be your teachers. You have an excellent Staff in the College; make good use of their experience and knowledge through constant personal contact both inside and outside the classrooms. Today more than ever, closer ties between the staff and students are the only way to counteract the many problems arising from the impersonal atmosphere prevailing in society. This would of course mean that you are willing to be guided by our teachers. This staff-student rapport will be all the more effective if parents co-operate and keep in touch with the College and Staff. To achieve this, the College brings together parents and teachers with specific programmes, which would assist parents with insights into the problems of growing youngsters. Many of our staff members have undergone training to help you not only with your academic difficulties but also with your personal and emotional problems. You may always approach them for guidance, to help you not only in solving your problems but also becoming more effective in the way you function. All the classes will have mentors who will meet their wards regularly and also conduct well-planned programmes to give them self-confidence, healthy inter-personal relationships and effective utilization of their talents and abilities.

## **PARENTS AND GUARDIANS**

Parents and Guardians are partners with the College in the task of total and integral education of their children and wards. It is in keeping with this concept of “partnership” in education that the Principal invites the parents of students to discuss with them the performance of their children. The meeting begins at 4.00 p.m. as announced in the calendar twice a year and every parent is requested to make it possible to attend it. Parents are also recommended to meet the welfare Officers and Class Mentors to ascertain from them the conduct and progress of their children. The College welcomes the suggestions for parents and well-wishers.
